ERRATA

In the title of the review of the Thesis by VEEGER, L. M., this *Bulletin*, 1959, v. 56, 1297, please delete " Leiden: Laboratorium voor Parasitologie, Rijksuniversiteit, Holland " and substitute " University of Amsterdam."

In the paper by DUGGAN, A. J., this *Bulletin*, 1960, v. 57, 344–345, the word " cause " on line 2 of p. 345 should read " course."

In the paper by NASH, T. A. M. on " A Review of the African Trypanosomiasis Problem," this *Bulletin*, 1960, v. 57, 973–1003, the last line of para. 3, p. 979, should read:

" be exceptionally high (BUXTON, 1955) ".

In his criticism of the chapter on snake bite [this *Bulletin*, 1960, v. 57, 1233–5] the reviewer incorrectly stated that Elapidae and Hydrophiidae belong to the family Colubridae. A classification of the snakes mentioned, which is generally accepted at present, is:—

Family: Colubridae
including
sub-family Colubrinae—fangless snakes (Aglypha)
sub-family Boiginae—posterior grooved fangs (Opisthoglypha)
Family: Elapidae (or Micruridae)—anterior grooved fangs (Proteroglypha)
Family: Hydrophidae—anterior grooved fangs (Proteroglypha)
Family: Viperidae—tubular fangs (Solenoglypha)
sub-family Viperinae
sub-family Crotalinae [or Family: Crotalidae]

A full classification of snakes will be found in " Reptiles of the World " by Raymond L. Ditmars, 1933.
